Part of the UAP Cylinder Registration Scheme

The cylinder comes with a key fob which includes a serial number. Customers can register the cylinder on our website to activate their guarantee. What's more, customers will also have access to 'My Keys.' This allows the customer to keep a record of their key number and an image, so if they ever lost all of their keys, they can log in to the website and simply take the key number and image to a key cutter to get cut. This will save them the expense of having to replace their cylinder!
