

Features Include:

Supplied with 3 keys

Has 6 pins

Can be keyed alike or mastersuited to Kinetica 3* cylinders and UAP 1* cylinders

70mm rim cylinder

Patented anti-bump feature

3 anti-pick pins

4 hardened steel anti-drill pins

Unrestricted keyway makes it easier for customers to get keys cut using the UAP key blank

Overall Size	Brass Code	Nickel Code
70mm	ZLRIMBRASS	ZLRIMCHROME

Restricted Keyway Available

You have the option to have a restricted keyway on the cylinder. This comes with a square key, and makes the cylinder more secure as the blank is only available from selected companies.

Brass Code	Nickel Code
ZLRIM-RESTRICTEDPLUG-BRASS	ZLRIM-RESTRICTEDPLUG-CHROME

Pair alike with UAP+ Cylinders

RIM CYLINDER

The rim cylinder is part of UAP's super smooth cylinders using the Chris Belcher designed anti-bump timing pin system. This very clever system uses nickel plated hardened steel key pins and driver pins, which gives the anti-drill feature we wanted to incorporate. The Patented timing pins are designed to interrupt the timing of the pins when bumped, and it is highly effective. And because we use special pins rather than trap pins, we do not have a high expense to get this anti-bump feature! The timing pins have inbuilt anti-picks, and mushroom driver pins, which makes them highly effective against picking.

Supplied with 3 keys

Over 800,000 different key combinations!

Unrestricted keyway — easier for customers to get keys cut

Has 6 pins

Full keyed alike and mastersuite services available

Uniquely, it can be keyed alike to Kinetica 3* Cylinders and UAP 6 pin Rim Cylinders!

ANTI BUMP

The cylinder has a unique and patented anti-bump system which does not use trap pins. This system makes the turning of the cylinder key extra smooth.

ANTI DRILL

7 x hardened steel anti-drill pins are in each side of the cylinder. Plus all moving pins are nickel plated hardened steel 50 HRC minimum.

ANTI PICK

Minimum of 3 anti-pick pins in each side of the cylinder makes it extremely difficult for a common burglar to pick the cylinder.
