

12" ALL STAINLESS STEEL LETTERPLATES

For 40–80mm Door Profiles

The UAP Anti Vandal 300mm all stainless steel 12 inch letterplate comes with both an external and internal flap to protect your customer's homes. These products are made from 316 grade stainless steel (heavy duty versions made from 216 grade stainless steel), and are specifically designed for areas which are within a 25 mile radius of the coast, or within 5 miles of highly populated industrial areas.

Unlike brass and zinc based products, the Nanocoast products will not pit, rust or corrode no matter what environments you put them in. They have been salt spray tested to ASTM B117:2005 for 2000+ hours. This means that the products will last longer, and keep your customers happy. What's more, every Nanocoast product comes with a lifetime coating guarantee!

ANTI SNAP FLAP

ANTI VANDAL

ANTI BURGLAR

Features Include:

Available in standard and heavy duty versions

Designed for 40-80mm thick composite and wooden doors

Made from 316 grade stainless steel

LIFETIME coating guarantee anywhere in the country

Outward facing brushes create the Anti-Vandal feature as it prevents vandals from placing unwanted items into the cavity

Outwards facing brushes also means better draught proofing and makes it easier to post letters through

180 degree opening flap means the flap will not snap off when opened too far

Blind bolts to the exterior of the letterplate prevents the outer frame being unscrewed from the door externally

An internal water seal prevents water getting into the door or panel, and stops letters getting wet

Ultra-flexible springs can withstand the letterbox flap opening thousands of times without breaking

Conforms to many standards and testing requirements including BS EN 1303:2005
