

FIRE RATED ID CARD SLOTS

The UAP identity card slots are the ultimate security accessory for protection against rogue traders and bogus callers. It enables the homeowner to check the ID of a caller without having to open the door; they simply lift up the sliding latch on the inside to allow the caller to slip the card through.

The identity card slots allow the occupier to receive the ID Card easily without the awkward fumbling that occurs when trying to receive it through the letterbox. It also enables the occupier to thoroughly check the ID without the pressure of the caller standing in the doorway. UAP identity card entry slots also acts as a visual deterrent to would-be-criminals; it shows them that the homeowner is aware of and prepared for bogus callers.

The zinc based identity card slots (black, white, polished gold and polished chrome) are salt spray tested to ASTM B117 for 480 hours, and come with a 5 year inland guarantee.
