

UAP NANOCOAST PATIO BLANKING PLATES

The UAP Nanocoast Patio Blanking Plates have been made with ease of fitting and high quality in mind.

As part of the Patio Door Handle range, the Patio Blanking Plates are ideal for when an external handle is not required. The Patio Blanking Plates will cover the cylinder, offering added security to any patio door.

The UAP Nanocoast Patio Blanking Plates are made with 316 grade stainless steel; the highest grade of stainless on the market, offering the best protection against rust and corrosion. As part of the Nanocoast range, the blanking plates also come with a lifetime coating guarantee!
