

The Fullex Crimebeater Midlock was designed to defeat the dual threats of lock bumping and cylinder snapping. The addition of a 20,000 differ 5 lever mid-lock defeats both forms of attack, by locking the lock, in addition to the cylinder function, which locks the door.

Crimebeater Midlock conforms to BS10621 and NHBC 2010 guidelines for enhanced security and requires no additional keep preparation.

PAS23 and PAS2424 tested

Dual or single spindle options

Meets NHBC 2010 guidelines for final exit doors

Meets specification of BS10621

Easily reversible latch as standard

Integral hold back latch function on lock faceplate

Various adjustable security keep sets available

For use with composite and timber doors

2 tapered steel hooks, deadbolt and latch or 3 deadbolts & latch

20mm stainless steel or 44mm white aluminium faceplates

## Technical Data

### Corrosion Resistance

BSEN1670 Grade 5 (480 hours)

### Cyclic Operation

Cycles Tested to 100,000 cycles

## Materials

### Top and Bottom Hook

Chrome plated A3 hardened cast steel

### Deadbolt

Chrome plated A3 hardened cast steel

### Centre Deadbolt

CZ122 brass stamping

### Faceplate

20mm 304 austenitic stainless steel or 44mm white aluminium powder coated

### Gearbox

Dacromet coated mild steel

### Mid Lock

Anti-drill hardened steel, black powder coated

Crimebeater Midlock is available on any Crimebeater variant, in 35, 45 and 55mm backsets, with 20mm Austenitic stainless steel and 44mm White aluminium faceplates.

All options are available as 3 deadbolt and latch or 2 hook and deadbolt and latch, making Crimebeater Midlock flexible and secure.

Coupled with Fullex door hinges, handles and accessories, Crimebeater Midlock is at the forefront of residential door security.
