

### HIGH SECURITY ESCUTCHEON WITH PULL FEATURE

The High Security Pull Escutcheon finishes are made from 316 grade stainless steel, and are part of the UAP Nanocoast range.

**New Pull Grip Feature** 

The pull grip is simply an additional section put onto the escutcheon – designed to perfectly fit the thumb for a comfortable grip. This new feature greatly improves the functionality of the everyday escutcheon. It has been developed for user efficiency by making the operation of closing and locking the door straightforward and smoother.

UAP Limited, Unit 1 Albert Close Trading Estate, Whitefield, Greater Manchester, United Kingdom, M45 8EH Tel: 0161 796 7268 | Fax: 0161 796 7410 | Email: Sales@uapcorporate.com www.uapcorporate.com

## Maintenance

High Security Escutcheons are, by their very nature, objects that require regular cleaning to remove build-up of dirt and salt particles from the atmosphere, from factories and vehicles. The High Security Escutcheons MUST be cleaned with a very mild soap solutionand a soft cloth at least once a month and every 2 weeks in areas of high sea salt such as coastal areas.

#### NEVER USE ABRASIVE CLEANERS

If the High Security Escutcheons are not properly maintained then this guarantee will be null and void. This guarantee does not cover any misuse of the Escutcheons, howsoever caused, and is limited solely to pitting and rusting from natural causes.

#### HIGH SECURITY ESCUTCHEON WITH PULL FEATURE
