

## 3 INCH SCREW FIX FRONT DOOR NUMBER

Front door numbers and letters are becoming more and more common on doors, and are essential to make properties stand out so they can be found easier. There is currently a big push by the emergency services for consumers to install a front door number on their homes, so they can find a house quickly in an emergency.

There are 6 finishes in total, each in complete set of door numbers 0 – 9. Polished brass, polished chrome and black door numbers are made from brass, and come with a 5 year inland guarantee. PVD gold, mirror polished and satin stainless finishes are part of the UAP Nanocoast range. The UAP Nanocoast range of screw fix front door numbers are specifically designed for areas which are within a 25 mile radius of the coast, or within 5 miles of highly populated industrial areas. Each Nanocoast front door number has been salt spray tested to ASTM B117 for 2,000 hours, and comes with an industry first LIFETIME coating guarantee, as the front door number will not pit, rust or corrode no matter what environments you put them in!

## Features Include:
