

12" FIRE RESISTANT LETTERPLATE

For 20-40mm and 40-80mm Door Profiles

The UAP Anti Vandal 250mm 10 inch letterplate comes with both an external and internal flap to protect your customer's homes, and is available in 2 different depths (20-40mm for uPVC doors, and 40-80mm for composite and wooden doors).

ANTI SNAP FLAP

ANTI VANDAL

ANTI BURGLAR

Features Include:

60 minutes fire rated

Lined with special intumescent material which expands to 50 times

Uses special heat absorbers to stop hot screws melting the plastic

Intumescent activated at 5 degrees lower than most in the market

Outward facing brushes create the Anti-Vandal feature as it prevents vandals from placing unwanted items into the cavity

Blind bolts to the exterior of the letterplate prevents the outer frame being unscrewed from the door externally

Designed for 40-80mm thick composite and wooden doors

An internal water seal prevents water getting into the door or panel, and stops letters getting wet

Ultra-flexible springs can withstand the letterbox flap opening thousands of times without breaking

Revolutionary Patent pending self-aligning screw boss

Conforms to many standards and testing requirements including aspects of BS EN 13724:2013
