

## DOOR KNOB

The UAP Door Knob has a very contemporary design, and has been produced to a very high standard. It is very high quality, with hidden fixings. This means internal fixings are not visible, creating a much cleaner and smoother look on the inside of the door.

There are 6 finishes available in total. Polished brass, polished chrome and satin chrome door knob finishes are made from brass, and come with a 5 year inland guarantee. PVD gold, mirror polished and satin stainless door knob finishes are made from 304 grade stainless steel, and are part of the UAP Nanocoast range.

Contemporary design
