

3* Kinetica HELIX Cylinder Powered by Fullex

UAP and Fullex have joined forces to launch our very own 3* Kitemarked Cylinder – Kinetica. The 3* cylinder market has been growing over the last 12 months or so with fabricators understanding the consumer need for greater door security without having to upgrade handles or add extra security devices. UAP and Fullex worked together to develop the best value for money 3* cylinder on the market.

Supplied with 5 keys

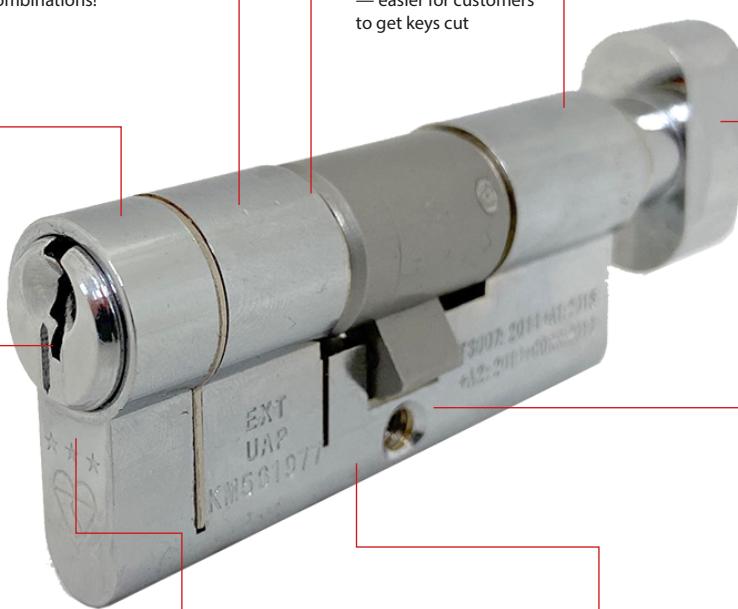

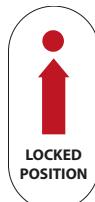

Over 800,000 different key combinations!

Unrestricted keyway — easier for customers to get keys cut

Has 6 pins

Full keyed alike and mastersuite services available

Uniquely, it can be keyed alike to UAP+ 1* Cylinders and UAP 6 pin Rim Cylinders!

SACRIFICIAL CUT

Patent applied for anti tilt mechanism. In normal anti snap cylinders once a cylinder is snapped at the outside end, the inner section is heavier and will tilt allowing the burglar a small gap to gain access to the bolt. But the Fullex anti tilt ring stops this happening.

ANTIBUMP

The cylinder has a unique and patented anti-bump system which does not use trap pins. This system makes the turning of the cylinder key extra smooth.

ANTI DRILL

7 x hardened steel anti-drill pins are in each side of the cylinder. Plus all moving pins are nickel plated hardened steel 50 HRC minimum.

ANTI PICK

Minimum of 3 anti-pick pins in each side of the cylinder makes it extremely difficult for a common burglar to pick the cylinder.

Part of the UAP Cylinder £5,000 Guarantee Scheme

The UAP cylinder guarantee scheme gives you and your customers the guarantee that if they get broken and your customer's insurance company will not pay out, UAP will pay up to £5,000 to cover the costs of the stolen goods!

The cylinder comes with a key fob which includes a serial number. Customers can register the cylinder on our website to activate their guarantee. What's more, customers will also have access to 'My Keys.' This allows the customer to keep a record of their key number and an image, so if they ever lost all of their keys, they can log in to the website and simply take the key number and image to a key cutter to get cut. This will save them the expense of having to replace their cylinder!

Uniquely, it can be keyed alike to UAP+ 1* Cylinders and UAP 6 pin Rim Cylinders!

The Kinetica Helix cylinder thumb turn has a red marking on the top and a sticker with informations on how to position thumb turn correctly to lock.

Kinetica HELIX Thumb Turn Cylinders

Thumb turn is on the 'T' side of the code
