

The new market demand for PPE across the world is huge, and sadly there are a lot of rogue companies selling poor quality products, and using fake certification. Buying from UAP Group is your guarantee that we have done the background checks to make sure the products will keep you and all users safe.

This Infrared Thermometer is designed to very quickly and accurately measure the body temperature. Designed for all ages, the LCD backlit screen is easy to read and the non-slip handle is comfortable to grip. The thermometer can be used repeatedly without worrying about contact with others. Readings take less than a second and the screen will immediately alert the user of whether a fever is present.

- Non-Contact
- 1 second reading
- Ideal for contactless body temperature measurement
- 2 AAA size battery (not included)
- Measurement range 32.0° C - 42.5° C
- Measurement distance: 1-5cm
- Accuracy 32.0° C - 42.5° C within limits $\pm 0.2^{\circ}$ C

75% Alcohol Wipes

50 PCS

Product code: PPE-ALCOHOLWIPES-50PIECES

UAP Alcohol Wipes are saturated with 75% isopropyl alcohol, to clean, prepare or degrease a variety of surfaces. The wipes are great for cleaning down any surfaces including hand rails on trains and buses etc., as well as removing dust, dirt, and grease from electronics, print heads and peripherals across a number of applications. They are also great for general surface cleaning and to prepare surfaces prior to bonding adhesive tapes.

Be safe. Be smart. Wipe all public surfaces with UAP wipes.

Children 3 Layer Face Masks

25 PCS

Product code: PPE-FACEMASK-3PLY-CHILDREN-25PCS

Pack of 5 product code: PPE-FACEMASK-CHILDREN-5PACK

Adult sized Face Masks are too big for children's faces to offer any protection. Our children's sized 3 ply face masks are designed to cover the nose and mouth. Face masks reduce harmful airborne substances and dust from entering the body whilst also reducing germs being spread by the wearer. Masks are skin-friendly and contain no irritants (dye, chemical and fibreglass free).
