

Adapt A Lever

High quality stainless steel handle adjusted to your needs.

The Intelligent Hardware stainless steel Adapt A Handle features an adaptable handle height to accommodate both inline and offset centres between 59-96mm and adaptable screw centres. The adjustable handle is ideal solution, for installers looking to reduce the amount of van stock they carry. This handle features the sliding mechanism fitted with a nylon seal for ingress protection. The bottom fixing bolt will fit through all the handles on the market. The top bolt is positioned to fit most locks by being longer than normal. The Adapt A Lever handle is supplied complete with all plates, 8mm solid spindle, fixings and an allen key.
