# fullex® HINGE PLATES

## SINGLE DOORS

Fullex hinge plates are designed to be used by smaller manufacturers so they did not need to rely on someone else to edge band their doors. Hinge plates hide the cut edges of the composite door leaf. Each hinge plate is engineered to provide long term reliability and security.

**Composite Doors**

- Fullex design
- High quality material
- Compatible with Crimebeater and XLC locks
- Easy to fit
- Ideal for smaller manufacturers
- Comes in white or brown

### Materials

**Faceplate**
uPVC or
Aluminium

For maximum security Fullex locks can be used with the Kinetica 3 star BSI Kitemarked TS007 cylinder.

Composite Doors

XL Crimebeater white standard plate is 44.5mm X 10mm for XLCBT44W, XLC45BT44W, XLC35HK44W and XLC45HK44W locks. Lock codes ending in a D use a 7D hinge plate 44.5mm X 7.5MM.
