

KINETICA+ K4

HORIZONTAL

Game changing 3* Kinetica+ K4 Thumb Turn Cylinder with Horizontal Keyway

A new horizontal version of our industry leading Kinetica+ K4 3-star cylinder. As an additional security measure, the Kinetica+ K4 Horizontal cylinder has been designed to allow only single-orientation key insertion. This has enabled the in-house UAP design team to create a smaller keyway, making it even harder to attack. The new horizontal keyway has six dimple pins and five laser track side pins, creating the potential for over 13 million differs, and making the lock even more difficult to pick.

With a user-friendly Thumb turn which is smoother to turn and easier to grip and unlike some other systems, it doesn't just stop at security, it also helps to stop bacteria thanks to a Thumb turn Warm Touch Bio Cap which has health-protecting qualities. The 3 Bio keys have antibacterial and antiviral properties. Bio keys have been tested to ISO 22196:2011 and shown to reduce Staphylococcus aureus and Escherichia coli and to ISO 21702:2019 and shown to reduce SARS-CoV-2.

- ANTI-PICK
- ANTI-DRILL
- ANTI-BUMP
- ANTI-SNAP

Keyed-alike and mastersuite services available
