

KINETICA+ K4

HORIZONTAL

Game changing 3* Kinetica+ K4 Cylinder with Horizontal Keyway

A new horizontal version of our industry leading Kinetica+ K4 3-star cylinder. As an additional security measure, the Kinetica+ K4 Horizontal cylinder has been designed to allow only single-orientation key insertion. This has enabled the in-house UAP design team to create a smaller keyway, making it even harder to attack. The new horizontal keyway has six dimple pins and five laser track side pins, creating the potential for over 13 million differs, and making the lock even more difficult to pick.

Thanks to its advanced technology and unrivalled built-in performance at every turn, it takes security, safety, hygiene and easy-fit functionality to a whole new level. At the heart of the cylinder's advanced defence capability lies an ingenious cam system that delivers a new kind of security. 3 Bio keys have antibacterial and antiviral properties. Bio keys have been tested to ISO 22196:2011 and shown to reduce Staphylococcus aureus and Escherichia coli and to ISO 21702:2019 and shown to reduce SARS-CoV-2.

3 Bio keys have antibacterial and antiviral properties and have been tested to ISO 22196:2011 and ISO 21702: 2019

Has 6 dimple pins and 5 laser track side pins

Over 13 million+ different key combinations!

Full keyed alike and mastersuite services available

Unrestricted keyway — easier for customers to get keys cut

Does not use trap pins so no danger of cylinder entrapment

Easy fit and a smooth key operation

It can be master keyed but it is limited so only available on smaller projects
