

HEAVY DUTY ALL STAINLESS STEEL 12 INCH FIRE RESISTANT LETTERPLATE

For 40–80mm Door Profiles

These heavy duty all stainless steel letterplates are sturdier and heavier than any other UAP letterplate, offering a better quality product and making them more resistant. These letterplates have been specifically designed for areas which are within a 25 mile radius of the coast, or within 5 miles of highly populated industrial areas. Made from 304 grade stainless steel, each product in the range has been salt spray tested to ASTM B117 for 2,000 hours, and comes with an industry first LIFETIME coating guarantee, as the products will not pit, rust or corrode no matter what environments you put them in.

ANTI SNAP FLAP

ANTI VANDAL

ANTI BURGLAR

Features Include:

Outward facing brushes create the Anti-Vandal feature as it prevents vandals from placing unwanted items into the cavity

Outwards facing brushes also means better draught proofing and makes it easier to post letters through

180 degree opening flap means the flap will not snap off when opened too far

Blind bolts to the exterior of the letterplate prevents the outer frame being unscrewed from the door externally

An internal water seal prevents water getting into the door or panel, and stops letters getting wet

Ultra-flexible springs can withstand the letterbox flap opening thousands of times without breaking

Conforms to many standards and testing requirements including BS EN 1303:2005

LIFETIME coating guarantee anywhere in the country

Measurements

Distance Between Screw Holes	272mm
Letterplate Length	300mm
Letterplate Height	74mm
Frame Material	Stainless Steel
Cavity Hole Size	257mm x 42mm
